Scholarship Committee

Gateway Community and Technical College

790 Thomas More Parkway

Edgewood, Kentucky 41017

Dear Committee Members,

I am honored to be asked to write a scholarship recommendation for Lee C. Campbell, a Computer Information Technology major at Gateway Community and Technical College. Lee is also a participant in TRIO Project ASPIRE, a federally funded grant that serves first generation and/or Pell eligible students.

Lee Campbell has overcome some personal struggles throughout his life to become a bright, driven, high achieving, kind and caring human being. His parents passed away early in his life and he was drawn to alcohol and substance abuse as a way to numb his feelings. As an adult, this student has overcome that way of life, and has even donated a kidney to save another person. Lee is extremely determined and inquisitive, and has taught himself a great deal in the world of technology, in addition to maintaining a perfect 4.0 GPA in Computer Information Technology coursework. This student's academic goal is to transfer to Northern Kentucky University to earn a bachelor degree in Informatics. His personal goal is to help other people in need. I highly recommend Lee Campbell be considered for a scholarship to support his high achievement and his drive to complete a bachelor degree in Informatics. A scholarship for this student is a wonderful investment; it is well deserved, and recognizes and reinforces his desire for success.

I would be happy to answer any inquiries regarding this recommendation. Please do not hesitate to contact me.

Best regards,

Sherry Feitz Parsons

Counselor, TRIO Project ASPIRE
